

# Faizan Akbar

**ID:** On request

**Nationality:** Pakistani **Date of birth:** 17/11/2007

**Place of birth:** Attock, Pakistan **Gender:** Male **Phone number:** (+92) 3260162496

**Email address:** [approach.faizan@gmail.com](mailto:approach.faizan@gmail.com)

**Home:** Islamabad, Pakistan, 41150 Islamabad (Pakistan)

## ABOUT ME

Results-driven AI Builder and Prompt Engineer with hands-on experience developing and deploying full-stack web applications using AI-powered tools and coding agents. Completed AI internship at FlyRank AI, working on n8n automation workflows and AI-driven process automation. Skilled in prompt engineering, building and launching websites using modern AI-assisted development tools, and designing automation pipelines that streamline business workflows. Focused on turning ideas into working products fast by leveraging AI as a full development engine.

## EDUCATION AND TRAINING

### Matric

**Green Valley High School Uchhali** [ 15/04/2021 – 01/08/2023 ]

**City:** Uchhali | **Country:** Pakistan | **Field(s) of study:** Science | **Final grade:** 1024/1100 (93.0%) — Secured strong foundation in core sciences and mathematics at secondary level. | **Level in EQF:** EQF level 2

### FSC

**The Concept College Naushera** [ 15/08/2023 – 15/09/2025 ]

**City:** Naushera | **Country:** Pakistan | **Field(s) of study:** Pre-Eng | **Final grade:** 923/1200 (76.9%) — Pre-engineering: Physics, Mathematics and Chemistry. | **Level in EQF:** EQF level 4

### Bachelors in Artificial Intelligence

**National University Of Computer And Emerging Sciences** [ 18/08/2025 – Current ]

**City:** Rawalpindi | **Country:** Pakistan | **Website:** <https://isb.nu.edu.pk/NEW/this.html> | **Field(s) of study:** Artificial Intelligence | **Final grade:** BS Artificial Intelligence covering software, databases, ML and web development.

### AI Courses

#### Online Studying

**Website:** <https://www.udemy.com/>

## SKILLS

Microsoft Word / Microsoft Office / Prompt Engineer / C++ / Git / Web Design & Web Development / n8n

## LANGUAGE SKILLS

**Mother tongue(s):** URDU

**Other language(s):**

**English**

**LISTENING** C2 **READING** C2 **WRITING** C2

**SPOKEN PRODUCTION** B2 **SPOKEN INTERACTION** B2

*Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user*

## WORK EXPERIENCE

---

 **Flyrank AI** – Islamabad, Pakistan

### Backend AI Engineer

[ 01/05/2026 – 16/08/2026 ]

Worked on backend and AI engineering projects involving REST APIs, PostgreSQL, Docker, web scraping, background job processing, authentication, PDF report generation, and AI API integration. Built and tested production-oriented backend services, implemented asynchronous task processing with queues/workers, developed polite web scrapers, connected applications with databases, and practiced Git/GitHub-based development and deployment workflows.

## TECHNICAL SKILLS

---

### Data Scientist

- Programming: Python, C, C++, HTML, CSS, Javascript

### Prompt Engineering

Skilled in designing and optimizing prompts for various AI and automation tools, including Cursor AI, Trace AI, Replit, n8n, Lovable, Figma, Spline, Firebase (Realtime DB & Firestore), MongoDB, MCP Servers, Notion AI, ChatGPT, Midjourney, and Leonardo AI. Experienced in using these tools for building intelligent workflows, UI prototyping, backend integration, automation, and generative design tasks.

Also proficient in:

- Programming Languages: Python, JavaScript, HTML, CSS, SQL
- Version Control & Deployment: GitHub, Vercel, Postman
- UI Frameworks & Styling: Tailwind CSS, ShadCN UI

### n8n & AI Automation

Built workflow automations using n8n to connect applications, APIs, databases, and AI services. Designed automated workflows for data processing, API integration, notifications, and AI-powered tasks, with a focus on reducing repetitive manual work and improving workflow efficiency.

### Web Development

Developed modern, responsive, and user-friendly websites using HTML, CSS, JavaScript, React, Next.js, and Tailwind CSS. Worked on responsive layouts, interactive UI components, animations, API integration, forms, and frontend-backend communication. Focused on creating clean, functional, and visually appealing web experiences while following modern development practices.

## SEMESTER PROJECTS

---

[ 01/10/2025 – 30/12/2025 ]

### Hotel Management System

Developed a console-based Hotel Management System using C++ to manage room bookings, customer records, check-in/check-out, and room availability. Implemented core programming concepts including classes, functions, arrays, file handling, and basic OOP principles.
